Purpose

The purpose of this project is to document the test results done on the KSP site on the web platform.

As we could've come up with thousands of tests for this site, we were told to come up with maximum of 500 tests.

So we decided to divide it in a way so we would test a little from each area, to be able to "cover" as much areas as possible in order to insure it's proper functionality.

The variety of tests included functional testing, GUI, accessibility, usability, etc.

Overview

KSP website is an Israeli site that offers a wide variety products from different categories, such as mobile phones, TV's, vacuums, sports, camping, pharmacy, cosmetics, etc.

Each category includes a wide range of sub-categories which makes the site very beneficial over other sites and can attract many customers.

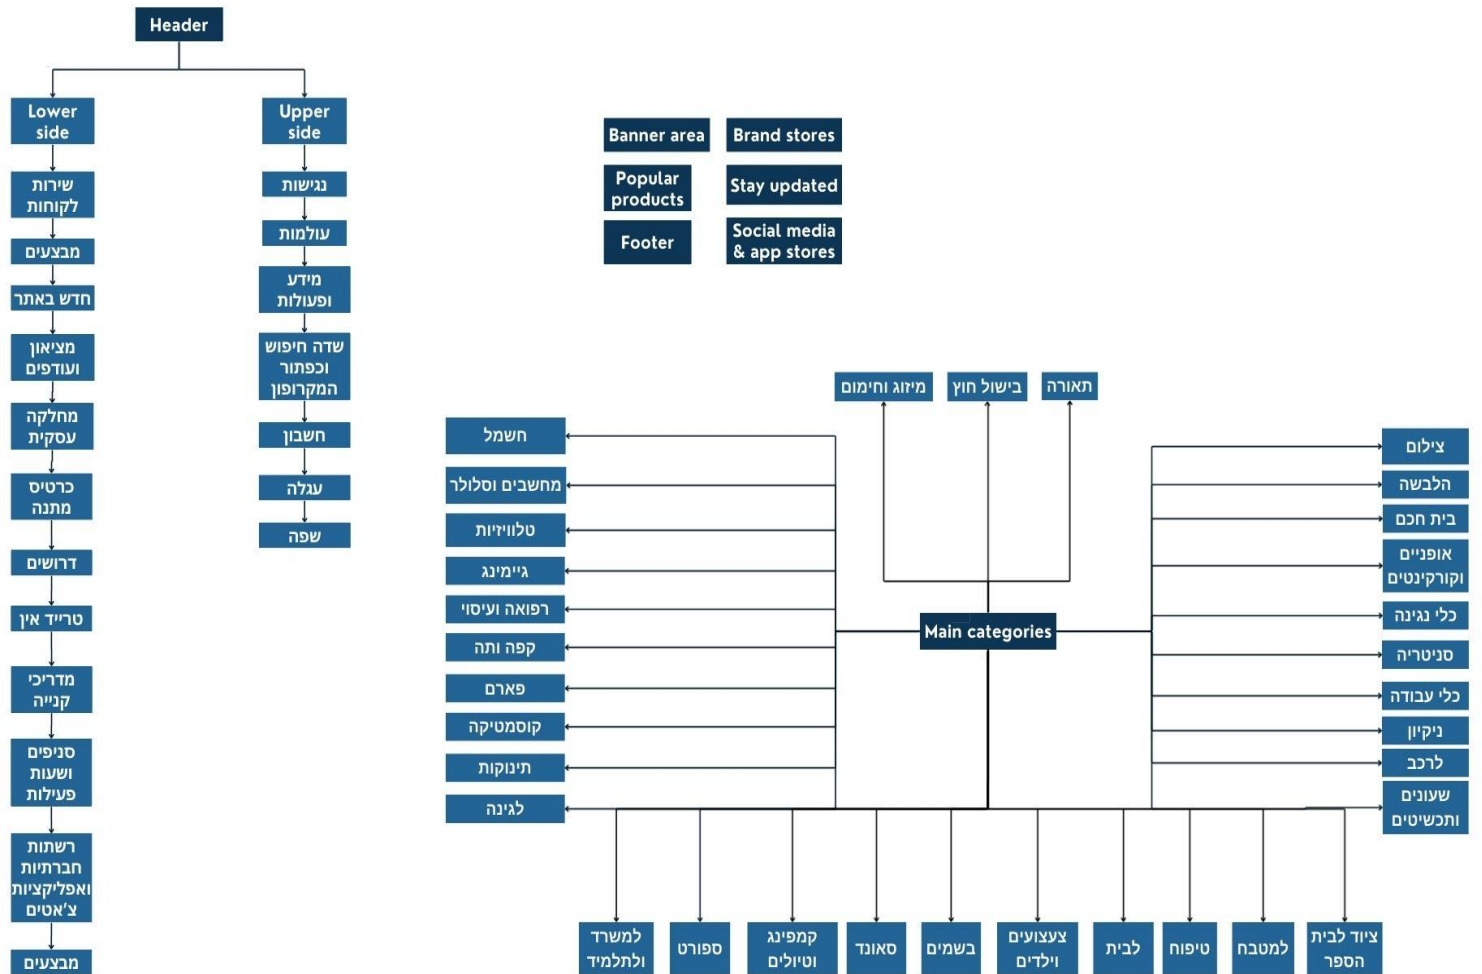

It has many sites spread all over the country, from south to north, and the products can be purchased by both personal and business customers, physically from the site or online.

Tools

It was important for us to do our best in this project, not only technically but also esthetically, so we have used the following tools-

- ChatGPT- to get more ideas for test cases.
- TechSmith Capture- for best quality screenshots.
- TestRail- to organize the test cases.
- Canva- for esthetic cover page and table of content that fits the colors of the website.
- Jira- to report discovered bugs and document them with all necessary details.
- DevTools- used for performance tests on the website.

Tests tree

Non-applicable tests:

- “Check that even during a site crash due to heavy load, my data is saved, and I receive an SMS on the mobile once the site recovers”
Reason: could not perform the site crash as the server of the site is unreachable for us and the option does not exist on the site.
- “Check that the system notifies me via email or message in case of new logins to my account (which could also be my own) from any new device, so I can know that there is no unfamiliar device and ensure that there are no breaches to my account.”
Reason: option does not exist on the site.
- “Check that if the system crashes due to heavy load (Sales periods, Black Friday with unusual traffic, or any other reason) - my user data is preserved after the system recovery.”
Reason: could not perform as we don’t have the necessary tools to test it and the server is unreachable for us.
- “Check that when you click on “Download on the App Store” button, it prompts you to KSP app on App Store”
Reason: could not perform as we didn’t have device with an IOS.
- “Check that when you click on “Get it on Google Play” button, it prompts you to KSP app on Google Play”
Reason: could not perform as the button did not exist in KSP website on Android device.

Test scope-

Tests In Scope

- Functional
- GUI
- Usability
- Interfaces
- Accessibility
- Performance- Tested only with DevTools.
- CRUD
- Compatibility

Tests Out of Scope

- Localization & Internationalization
- Security
- Recovery & Survival
- Load
- Stress

Test Areas-

Test Areas in Scope

Upper-side toolbar

- Accessibility
- Worlds
- Information and Actions
- Information and Actions - Appointment scheduling for a branch
- Information and Actions - Secret deals and coupons
- Positive tests for connecting to receive deals and coupons via email.
- Tests on the product search window on the website
- Test on account - personal area - login

Lower-side toolbar

- Customer Service
- Promotions
- Computers & Mobile category
- "Stay Updated" category
- Footer

"Social Media and App Stores"

Test Areas Out of scope

Upper-side toolbar

- "Account - Product Comparison - Favorites - View Prices with Amex Points Deduction"
- Shopping Cart
- "Change to different languages"

Lower-side toolbar

- New on the Website
- Outlet & Clearance
- Business Department
- Gift Card
- Careers
- Trade-In
- Purchase guides
- “Link to promotions and updates page with icons for Telegram, Instagram, WhatsApp, TikTok and Facebook.”

Front Page of the Website

- All product categories on the website, except for Computers and Mobile, were tested.
- “To all brand stores”
- “All Popular Product Titles”

Footer

- “Newsletter Subscription”
- “All topics under the ‘Information & Terms of Service’ section”
- “All topics under the ‘Customer Service’ section”
- “All topics under the ‘About’ section”
- “Privacy & Cookies Policy”

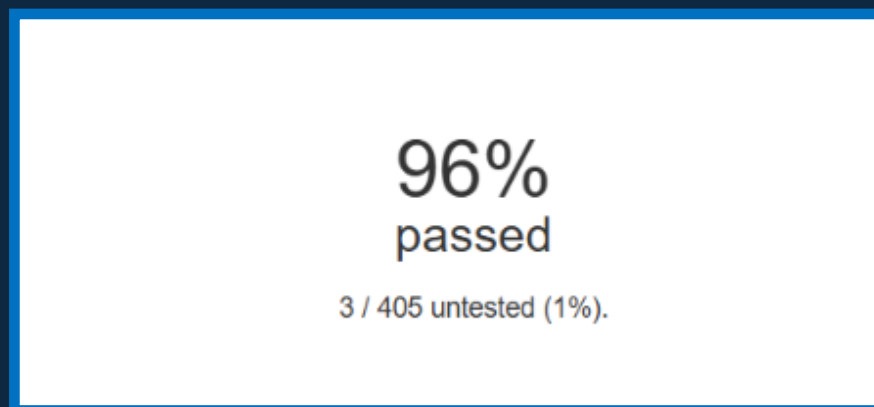

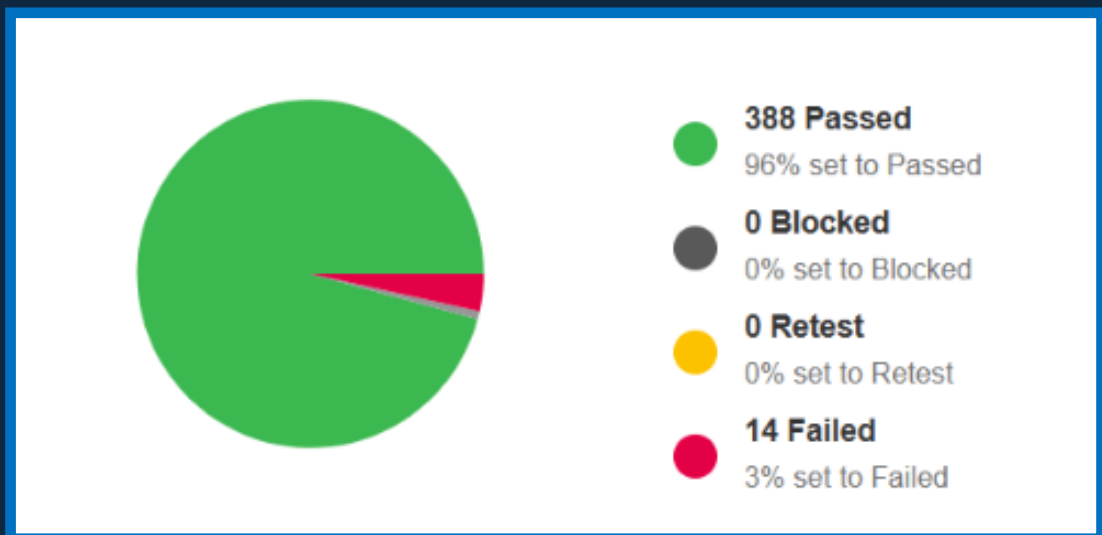

Bugs severity summary

The chart below shows the total bugs discovered from the tests done on the KSP site.

The total bugs that were found are 14, which most of them are classified as Low and Major severity.

Only 2 bugs were classified with Minor severity.

Severity	Low	Minor	Major	Critical
Closed	0	0	0	0
Opened	6	2	6	0

Screenshot of bugs from Jira

The screenshot shows the Jira interface for the 'STD+STR PROJECT - KSP'. The left sidebar contains navigation options like 'For you', 'Recent', 'Starred', 'Apps', 'Plans', 'Projects', and 'Recent'. The main content area displays a list of bugs under the 'All work' tab. The bugs are listed in a table with columns for Work, Assignee, Reporter, Priority, and Severity. The bugs are SPK-10, SPK-7, SPK-6, SPK-5, SPK-4, and SPK-3. All bugs are assigned to 'Unassigned' and have a priority of 'Medium'. The severity levels are Major, Minor, Major, Low, Minor, and Low respectively.

Work	Assignee	Reporter	Priority	Severity
SPK-10 System sends SMS to invalid mobile numbers (e.g., ...	Unassigned	Elad zioni	Medium	Major
SPK-7 Clicking on Accessibility while network is disconnect...	Unassigned	Elad zioni	Medium	Minor
SPK-6 Highlight Headings' button in the accessibility menu ...	Unassigned	Elad zioni	Medium	Major
SPK-5 "מדיניות אחריות" option under "מידע ותנאי שירות" ha...	Unassigned	Shai Rakhminov	Medium	Low
SPK-4 "סניפים ושעות פעילות" section doesn't have "speech...	Unassigned	Shai Rakhminov	Medium	Minor
SPK-3 The button "לפרטים נוספים" isn't in the same color i...	Unassigned	Shai Rakhminov	Medium	Low

Recommendations

- There should be maximum of 3 bugs at Major severity level for the site to be in a state of proper functionality.
- The GUI of the site should be improved, as some of the buttons appeared in different colores then the others. This could be seemed annoying for some customers and overall, it looks unprofessional.
- Speech-to-text accessibility option could be added to other search fields as well, and not only to the main search field of the site.
- At some areas the Hebrew wording is incorrect, which doesn't impact the performance or functionality overall, but not what you expect from a big, well-known company like this.

Exit criteria

- No bugs with Critical severity - Yes.
- All discovered bugs must be checked - Yes.
- There should not be more than 3 bugs with Major severity - No.
- The site must be user intuitive and comfortable to use for all kinds of customers - yes.

Conclusion

After carefully reviewing all bugs and their severity, together with the overall functionality of the site and even though we discovered a total of 6 bugs with major severity, we have decided to **Go Live**.

The site seems to be functioning properly and even though some customers might struggle with the navigation at first, it is adaptable after all.

Screenshot of bugs from TestRail

The screenshot displays the TestRail web application interface. The top navigation bar includes the TestRail logo, the project name 'KSP', and various utility links like 'Add', 'Search', 'Working On', 'Automation...', and 'Admin'. The left sidebar shows the project structure with sections and test cases, including a tree view for 'Header' and 'Main categories'. The main content area shows a list of test cases under the 'Functional Positive' section, with 13 items listed. Each item has an ID, a title, and a status icon.

ID	Title
C406	Check that clicking on 'Accessibility' redirects me to the accessibility menu on the website
C407	Check that clicking on 'High Contrast Mode' in the accessibility menu is successfully applied
C408	Check that clicking on 'Grayscale' in the accessibility menu is successfully applied
C409	Check that clicking on 'Increase Text' in the accessibility menu indeed enlarges the text on the website
C410	Check that clicking on 'Decrease Text' in the accessibility menu indeed reduces the text size on the website
C411	Check that clicking on 'Highlight Links' in the accessibility menu indeed highlights the existing links on the website
C412	Check that clicking on 'Highlight Headings' in the accessibility menu indeed highlights the headings on the website
C413	Check that clicking on 'Stop Animations' in the accessibility menu has indeed been applied
C414	Check that clicking on 'Reset' in the accessibility menu indeed resets the website
C415	Check that clicking on the 'X' icon in the accessibility menu indeed closes the menu
C416	Check that clicking on 'Go to Accessibility Statement' indeed opens the website's accessibility statement
C417	Check that keyboard opening – focus on the button → Enter/Space opens the menu
C418	heck that closing with Esc – after opening, Esc closes and returns focus to the button

STD via Testrail

ID	Title	Created By	Section	
C214	Check that clicking on 'Accessibility' redirects me to the accessibility menu on the website	Shai Rakhminov	Functional Positive	Pass
C215	Check that clicking on 'High Contrast Mode' in the accessibility menu is successfully applied	Shai Rakhminov	Functional Positive	Pass
C216	Check that clicking on 'Grayscale' in the accessibility menu is successfully applied	Shai Rakhminov	Functional Positive	Pass
C217	Check that clicking on 'Increase Text' in the accessibility menu indeed enlarges the text on the website	Shai Rakhminov	Functional Positive	Pass
C218	Check that clicking on 'Decrease Text' in the accessibility menu indeed reduces the text size on the website	Shai Rakhminov	Functional Positive	Pass
C219	Check that clicking on 'Highlight Links' in the accessibility menu indeed highlights the existing links on the website	Shai Rakhminov	Functional Positive	Fail
C220	Check that clicking on 'Highlight Headings' in the accessibility menu indeed highlights the headings on the website	Shai Rakhminov	Functional Positive	Pass
C221	Check that clicking on 'Stop Animations' in the accessibility menu has indeed been applied	Shai Rakhminov	Functional Positive	Pass
C222	Check that clicking on 'Reset' in the accessibility menu indeed resets the website	Shai Rakhminov	Functional Positive	Pass

C223	Check that clicking on the 'X' icon in the accessibility menu indeed closes the menu	Shai Rakhminov	Functional Positive	Pass
C224	Check that clicking on 'Go to Accessibility Statement' indeed opens the website's accessibility statement	Shai Rakhminov	Functional Positive	Pass
C225	Check that keyboard opening – focus on the button → Enter/Space opens the menu	Shai Rakhminov	Functional Positive	Pass
C226	Check that closing with Esc – after opening, Esc closes and returns focus to the button	Shai Rakhminov	Functional Positive	Pass
C227	Clicking on 'Accessibility' while the network is disconnected → a user-friendly error message is displayed	Shai Rakhminov	Negative Test Cases	Fail
C228	Repeated opening ×20 → no slowdown or duplicate events	Shai Rakhminov	Negative Test Cases	Pass
C229	Check that there are no spelling mistakes and no errors in the page structure in terms of layout and design.	Shai Rakhminov	GUI	Pass
C230	Check that the menu, buttons, fonts, and fields are well organized and positioned correctly, that the fonts are consistent, and that the fields are uniform in size.	Shai Rakhminov	GUI	Pass
C231	Check that the accessibility menu is clear, easy to use, and user-friendly	Shai Rakhminov	Testing Usability	Pass
C232	Check the website's response time when opening the accessibility menu	Shai Rakhminov	Testing Performance	Pass
C233	Check that clicking on 'Worlds' indeed opens all product categories on the website	Shai Rakhminov	Positive Test Cases	Pass
C234	Check that clicking again on the 'Worlds' button indeed closes the menu	Shai Rakhminov	Positive Test Cases	Pass
C235	Navigate to category – check that selecting a category leads to the correct category page (PLP) with the proper title and URL.	Shai Rakhminov	Positive Test Cases	Pass
C236	Esc – after opening, check that pressing the Esc key	Shai Rakhminov	Positive Test Cases	Pass

	closes the menu and returns focus to the button.			
C237	Keyboard opening – navigate with Tab to “Worlds” and press Enter/Space to open the menu.	Shai Rakhminov	Positive Test Cases	Pass
C238	Check that navigation with Tab – it is possible to move between the menu items using Tab/Shift+Tab	Shai Rakhminov	Positive Test Cases	Pass
C239	Check that the category names in the menu match the names on the destination pages.	Shai Rakhminov	Positive Test Cases	Pass
C240	Opening without network: click “Worlds” when the network is disconnected → shows an unfriendly error/no message	Shai Rakhminov	Negative Test Cases	Pass
C241	Repeated opening ×20 → no slowdown or duplicate events	Shai Rakhminov	Negative Test Cases	Pass
C242	Check that there are no spelling mistakes and no errors in the page structure in terms of layout and design.	Shai Rakhminov	GUI	Pass
C243	Check that the menu, buttons, fonts, and fields are well organized and positioned correctly, that the fonts are consistent, and that the fields are uniform in size.	Shai Rakhminov	GUI	Pass
C244	Check that the 'Worlds' menu is clear, easy to use, and user-friendly	Shai Rakhminov	Testing Usability	Pass
C245	Check the website's response time when opening the 'Worlds' menu	Shai Rakhminov	Testing Performance	Pass
C246	Check that clicking on ""Information and Actions"" opens the desired menu.	Shai Rakhminov	Positive Test Cases	Pass
C247	Check that clicking the ""Information and Actions"" button again closes the window.	Shai Rakhminov	Positive Test Cases	Pass
C248	Esc – after opening, check that pressing the Esc key closes the menu and returns focus to the button.	Shai Rakhminov	Positive Test Cases	Pass
C249	Keyboard opening – navigate with Tab to “Information and Actions” and press	Shai Rakhminov	Positive Test Cases	Pass

	Enter/Space to open the menu.			
C250	Check that navigation with Tab – it is possible to move between the menu items using Tab/Shift+Tab	Shai Rakhminov	Positive Test Cases	Pass
C251	Check that the category names in the menu match the names on the destination pages.	Shai Rakhminov	Positive Test Cases	Pass
C252	Clicking on "Information and Actions" while the network is disconnected → a user-friendly error message is displayed	Shai Rakhminov	Negative Test Cases	Pass
C253	Repeated opening ×20 → no slowdown or duplicate events	Shai Rakhminov	Negative Test Cases	Pass
C254	Check that there are no spelling mistakes and no errors in the page structure in terms of layout and design.	Shai Rakhminov	GUI	Pass
C255	Check that the menu, buttons, fonts, and fields are well organized and positioned correctly, that the fonts are consistent, and that the fields are uniform in size.	Shai Rakhminov	GUI	Pass
C256	Check that the "Information and Actions" menu is clear, easy to use, and user-friendly	Shai Rakhminov	Testing Usability	Pass
C257	Check the website's response time when opening the "Information and Actions" menu	Shai Rakhminov	Testing Performance	Pass
C258	Check that clicking on "Appointment scheduling for a branch" opens a window for scheduling a branch appointment.	Shai Rakhminov	Positive Test Cases	Pass
C259	Check that the site allows me to register for an appointment with a valid 10-digit mobile number.	Shai Rakhminov	Positive Test Cases	Pass
C260	Check that when entering a valid mobile number, an SMS message is indeed received on the mobile for scheduling an appointment at the desired branch.	Shai Rakhminov	Positive Test Cases	Pass

C261	Check that clicking on the X icon indeed closes the window.	Shai Rakhminov	Positive Test Cases	Pass
C262	Check that clicking on Close in the appointment scheduling window indeed closes the window.	Shai Rakhminov	Positive Test Cases	Pass
C263	Check that it is possible to receive a message for a branch appointment with 10 digits but using different valid prefixes available in Israel.	Shai Rakhminov	Positive Test Cases	Pass
C264	Check that - Copy/Paste – direct pasting of a valid number from the clipboard → the system accepts.	Shai Rakhminov	Positive Test Cases	Pass
C265	Check that it is possible to log in with a mobile number containing a space 050 123 456	Shai Rakhminov	Positive Test Cases	Pass
C266	Check that it is possible to receive a message on the mobile with a mobile number containing a hyphen, e.g., 050-1234567.	Shai Rakhminov	Positive Test Cases	Pass
C267	Full international input (e.g., +972501234567) → the system removes the +972 prefix and recognizes it as a valid 10-digit number.	Shai Rakhminov	Positive Test Cases	Pass
C268	Autofill – automatic filling of the field by the browser with a valid number → accepted.	Shai Rakhminov	Positive Test Cases	Pass
C269	Check that less than 10 digits – entering 0501234 → displays an error message.	Shai Rakhminov	Negative Test Cases	Pass
C270	Check that more than 10 digits – entering 050123456789 → rejected.	Shai Rakhminov	Negative Test Cases	Pass
C271	Check that empty field – clicking “Continue” without a number → required to enter.	Shai Rakhminov	Negative Test Cases	Pass
C272	Check that letters in English/Hebrew – e.g., ABCDEF or טלפון → rejected.	Shai Rakhminov	Negative Test Cases	Pass
C273	Check that special characters – 050@123456 or 050!234567 → rejected.	Shai Rakhminov	Negative Test Cases	Pass
C274	Check that digits with mixed characters – 05012AB567 → error.	Shai Rakhminov	Negative Test Cases	Pass

C275	Check that invalid prefix – number starting with 07 or 09 (if not defined as supporting mobile) → rejected.	Shai Rakhminov	Negative Test Cases	Pass
C276	Check that unrealistic consecutive digits – 0000000000 or 1111111111 → rejected.	Shai Rakhminov	Negative Test Cases	Pass
C277	Check that non-matching international number – +19721234567 (US number) → rejected.	Shai Rakhminov	Negative Test Cases	Pass
C278	Check that partial international number – +97250 only → error.	Shai Rakhminov	Negative Test Cases	Pass
C279	10 digits exactly but all identical – → invalid. 9999999999	Shai Rakhminov	Negative Edge Cases	Pass
C280	10 digits but starting with “1” (not a valid prefix in Israel) → rejected.	Shai Rakhminov	Negative Edge Cases	Pass
C281	10 digits with illogical digits (e.g. 0500000000 if not defined as a valid prefix in Israel).	Shai Rakhminov	Negative Edge Cases	Fail
C282	Input with a space at the beginning of the number – → if the system does not trim, it should be rejected. 0501234567	Shai Rakhminov	Negative Edge Cases	Pass
C283	Input with a space at the end – → should be rejected if not trimmed. 0501234567	Shai Rakhminov	Negative Edge Cases	Pass
C284	Input with multiple hyphens – → rejected. 050-123-4567	Shai Rakhminov	Negative Edge Cases	Pass
C285	Input with mixed characters and spaces – (O instead of 0) → rejected. 05O 123 4567	Shai Rakhminov	Negative Edge Cases	Pass
C286	Pasting long text (e.g., number + text “Hello”) → rejected.	Shai Rakhminov	Negative Edge Cases	Pass
C287	Emoji or symbols – → error. 0501234567	Shai Rakhminov	Negative Edge Cases	Pass
C288	International code entered twice – → rejected. +972+972501234567	Shai Rakhminov	Negative Edge Cases	Pass
C289	Check that there are no spelling mistakes and no errors in the page structure in terms of layout and design.	Shai Rakhminov	GUI	Pass

C290	Check that the menu, buttons, fonts, and fields are well organized and positioned correctly, that the fonts are consistent, and that the fields are uniform in size.	Shai Rakhminov	GUI	Pass
C291	In the mobile input field – I will enter numbers and check if there is a limit to the amount of text, and whether at some point the text overflows outside the field.	Shai Rakhminov	GUI	Pass
C292	""Check that the website automatically trims spaces when entering a mobile number with spaces, e.g., 050 123 4567.""	Shai Rakhminov	GUI	Fail
C293	""Check that the website automatically corrects a mobile number entered with a hyphen, e.g., 050-1234567.""	Shai Rakhminov	GUI	Fail
C294	Check that the "Information and Actions - Appointment scheduling for a branch" menu is clear, easy to use, and user-friendly	Shai Rakhminov	Testing Usability	Pass
C295	Check how much time passes from the moment of entering the mobile number until I receive an SMS on the mobile.	Shai Rakhminov	Testing Performance	Pass
C296	Check that even during a site crash due to heavy load, my data is saved, and I receive an SMS on the mobile once the site recovers.	Shai Rakhminov	Testing Recovery & Survival	Not applicable
C297	Verify that clicking on 'Deals and Secret Coupons' successfully redirects the user to the appropriate section	Shai Rakhminov	Positive Test Cases	Pass
C298	Check that clicking on the email icon opens the option to register via email to receive coupons and deals.	Shai Rakhminov	Positive Test Cases	Pass
C299	Check that clicking on the Telegram icon leads me to receive coupons and deals on Telegram.	Shai Rakhminov	Positive Test Cases	Pass
C300	Check that clicking on the Instagram icon leads me to	Shai Rakhminov	Positive Test Cases	Pass

	receive coupons and deals via Instagram.			
C301	Check that clicking on the TikTok icon leads me to receive deals and coupons via TikTok.	Shai Rakhminov	Positive Test Cases	Pass
C302	Entering a valid email and clicking "Send to me!" → a success/confirmation message is received.	Shai Rakhminov	Positive Test Cases	Pass
C303	Pressing Enter in the field → sends just like clicking the button.	Shai Rakhminov	Positive Test Cases	Pass
C304	Button is enabled only when a valid email is entered (proper enabled/disabled logic).	Shai Rakhminov	Positive Test Cases	Pass
C305	Check that a standard valid address (user@example.com)	Shai Rakhminov	Positive Test Cases	Pass
C306	Check that an email with uppercase/lowercase letters (User.Name@Example.COM) is accepted.	Shai Rakhminov	Positive Test Cases	Pass
C307	Check that an email with a subdomain (user@mail.example.co.il) is accepted.	Shai Rakhminov	Positive Test Cases	Pass
C308	Check that an email with allowed characters (dot/underscore/hyphen: first-last_1@example.co.il) is accepted.	Shai Rakhminov	Positive Test Cases	Pass
C309	Check that an email with a plus sign (user+promo@example.com) is accepted.	Shai Rakhminov	Positive Test Cases	Pass
C310	Check that an email with a long TLD (user@example.technology) is accepted.	Shai Rakhminov	Positive Test Cases	Pass
C311	Check that an address with spaces at the beginning/end (user@example.com) is trimmed and accepted.	Shai Rakhminov	Positive Test Cases	Pass
C312	Check that pasting a valid email (Paste) is accepted.	Shai Rakhminov	Positive Test Cases	Pass
C313	Check that browser Autofill with a valid email is accepted and the button becomes enabled.	Shai Rakhminov	Positive Test Cases	Pass
C314	Check that an empty field is not submitted and a clear	Shai Rakhminov	Negative Test Cases	Pass

	required message is displayed.		including Edge Cases	
C315	Check that an address without @ (e.g., userexample.com) is rejected with an error message.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C316	Check that an address without a domain (e.g., user@ or user@.) is rejected.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C317	Check that an address without a local part (e.g., @example.com) is rejected.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C318	Check that an address with two @ signs (e.g., user@@example.com) is rejected.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C319	Check that an address with spaces in the middle (like user @example.com) is rejected if not trimmed.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C320	Check that forbidden characters (such as "", ' , /) in the address cause an error.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C321	Check that two consecutive dots (user..name@example.com) are rejected.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C322	Check that a dot at the beginning/end of the local part (.user@example.com) is rejected.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C323	Check that an illegal domain (hyphen at the beginning/end) is rejected.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C324	Check that an invalid/too short TLD (.c) is rejected.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C325	Check that an excessively long email (over 320 characters) is rejected without crashing the UI.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C326	Check that an email with emoji or non-ASCII characters (user🤪@example.com) is rejected.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass

C327	Check that an address with RTL/problematic directionality characters is rejected or a clear message is displayed.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C328	Check that input with extra text (user@example.com Hello) is rejected.	Shai Rakhminov	Negative Test Cases including Edge Cases	Pass
C332	Check that the items in the window are indeed clear and easy to use	Shai Rakhminov	Usability	Pass
C329	Check that there are no spelling mistakes and no errors in the page structure in terms of layout and design	Shai Rakhminov	GUI	Pass
C330	Check that the menus, buttons, fonts, and fields are well organized, correctly positioned, that the fonts are consistent, and that the fields are uniform in size.	Shai Rakhminov	GUI	Pass
C331	Check that in the email field, when entering a large number of letters or digits, there is a limit to the amount of text, and that the text does not overflow outside the field	Shai Rakhminov	GUI	Pass
C333	Check that it is indeed possible to register via Telegram to receive coupons and promotions, provided I have an active account	Shai Rakhminov	Testing Interfaces	Pass
C334	is indeed possible to register via Instagram to receive coupons and promotions, provided I have an active account.	Shai Rakhminov	Testing Interfaces	Pass
C335	Check that it is indeed possible to register via TikTok to receive coupons and promotions, provided I have an active account	Shai Rakhminov	Testing Interfaces	Pass
C336	Verify that entering a valid product name (e.g., "iPhone 14") and pressing Enter displays relevant results	Shai Rakhminov	Positive tests	Pass
C337	Verify that clicking the search icon after typing a product name displays relevant results.	Shai Rakhminov	Positive tests	Pass

C338	Verify that pasting a valid product name into the search field displays matching results.	Shai Rakhminov	Positive tests	Pass
C339	Verify that browser Autofill with a previous search term is accepted and displays results.	Shai Rakhminov	Positive tests	Pass
C340	Verify that searching by SKU/product code (e.g., 123456) leads directly to the correct product page.	Shai Rakhminov	Positive tests	Pass
C341	Verify that searching by brand name (e.g., "Samsung") displays a list of that brand's products.	Shai Rakhminov	Positive tests	Pass
C342	Verify that entering a partial keyword (e.g., "lapto") displays appropriate suggestions/results ("Laptop").	Shai Rakhminov	Positive tests	Pass
C343	Verify that voice search (clicking the microphone icon and saying a product name) returns results.	Shai Rakhminov	Positive tests	Pass
C344	Verify that search suggestions appear below the field when typing a valid query.	Shai Rakhminov	Positive tests	Pass
C345	Verify that clicking one of the search suggestions leads to the correct product list or product page.	Shai Rakhminov	Positive tests	Pass
C346	Verify that search is case-insensitive (e.g., "iphone" or "IPHONE" return the same results).	Shai Rakhminov	Positive tests	Pass
C347	Verify that using Tab/Shift+Tab moves focus correctly between the field, icons, and suggestion list.	Shai Rakhminov	Positive tests	Pass
C348	Verify that the field accepts Hebrew input (e.g., "מחשב נייד") and returns appropriate results.	Shai Rakhminov	Positive tests	Pass
C349	Verify that the field accepts English input (e.g., "Laptop") and returns appropriate results.	Shai Rakhminov	Positive tests	Pass
C350	Verify that clicking inside the search field places the cursor and allows immediate typing.	Shai Rakhminov	Positive tests	Pass

C351	Check that clicking the recording button actually works.	Shai Rakhminov	Positive tests	Pass
C352	Check that clicking the microphone button and saying a product name for search actually returns the correct output	Shai Rakhminov	Positive tests	Pass
C353	Check that typing an empty field does not return results and displays an appropriate message.	Shai Rakhminov	Negative tests including edge cases	Pass
C354	Check that entering only spaces behaves like an empty search.	Shai Rakhminov	Negative tests including edge cases	Fail
C355	Check that entering only one character does not return results or displays a message "You must enter at least X characters."	Shai Rakhminov	Negative tests including edge cases	Pass
C356	Check that entering a very long string (1000+ characters) does not cause a crash/server error.	Shai Rakhminov	Negative tests including edge cases	Pass
C357	Check that entering special characters (ZWNJ / RTL) does not break results .	Shai Rakhminov	Negative tests including edge cases	Pass
C358	Check that entering only emojis ("👁️👂👃") returns "No results."	Shai Rakhminov	Negative tests including edge cases	Pass
C359	Check that pasting illegal/binary text does not cause a system error.	Shai Rakhminov	Negative tests including edge cases	Pass

Bugs from Jira

[SPK-1] Frame of the button isn't colored in blue when hovering over “כתובות הסניפים ושעות פעילותם”

Created: 30/Aug/25 Updated: 02/Sep/25

Status:	To Do		
Project:	STD+STR PROJECT - KSP		
Components:	None		
Affects versions:	None		
Fix versions:	None		
Type:	Bug	Priority:	Medium
Reporter:	Shai Rakhminov	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		
Environment:	Brower- Chrome Browser version- Version 139.0.7258.155 (Official Build) (64-bit)		

Steps to reproduce:

1. Go to <https://ksp.co.il/web/>
2. At the top-right side of the toolbar, Click on “שירות לקוחות”
3. Hover with the cursor over “כתובות הסניפים ושעות פעילותם” button

Expected result:

The frame of the button is colored in blue, as the rest of the buttons

Video of the bug in the following link: <https://app.screencast.com/oIuf5yY9QZiC1>

Actual result:

The frame of the button doesn't color in blue

[SPK-2] [The button “להסבר על דרכי הגעה וחניה” isn't in blue color](#)

Created: 30/Aug/25 Updated: 02/Sep/25

The screenshot shows a web browser displaying the URL ksp.co.il/web/stores. The page contains a grid of 12 sale boxes. Each box lists a location (e.g., אילת, אשקלון), a date and time, and a button labeled "להסבר על דרכי הגעה וחניה". A red callout box highlights the text in the top-right box, noting that it is black, while the text in the other boxes is blue.

Severity:

Low

Description

Steps to reproduce:

1. Go to <https://ksp.co.il/web/stores>
2. View the button "להסבר על דרכי הגעה וחניה" in "אילת הטיילת" site.

Expected result:

The button is in blue color, as in the rest of the sites.

Actual result:

The button is in black color

[SPK-3] [The button "לפרטים נוספים" isn't in the same color in all sale boxes](#)

The text in the button in the rest of the boxes is in black

The text in the button is in blue color

Severity: Low

Description

Steps to reproduce:

1. Go to <https://ksp.co.il/web/promotions>
2. View the sale box of the "SAMSUNG" screens-->notice the "לפרטים נוספים" button at the bottom left side of the box is in blue.

Expected result:

The button is in black color, as in the rest of the sale boxes

Actual result:

The button is in blue color

[SPK-4] ["סניפים ושעות פעילות" section doesn't have "speech-to-text" option](#)

Attachments:

The screenshot shows the KSP website at ksp.co.il/web/. The page features a banner for HP printers at the top. Below the banner, there is a section with a search bar and a button labeled 'שילוח אליין'. The footer contains several columns of links and social media icons. A red arrow points to the link 'מדניות הכוללת' in the footer.

Severity: Low

Description

Steps to reproduce:

1. Go to <https://ksp.co.il/web/>
2. Roll all the way down to the bottom of the page.

3. View the fifth option from the top under under “מידע ותנאי שירות” title at the right side of the page.
4. The option "מדיניות אחריות" is written as “מדיניות אחריות”.

Expected result:

The option “מדיניות אחריות” is written as “מדיניות אחריות” with no spelling errors.

Actual result:

The option "מדיניות אחריות" is written as “מדיניות אחריות”.

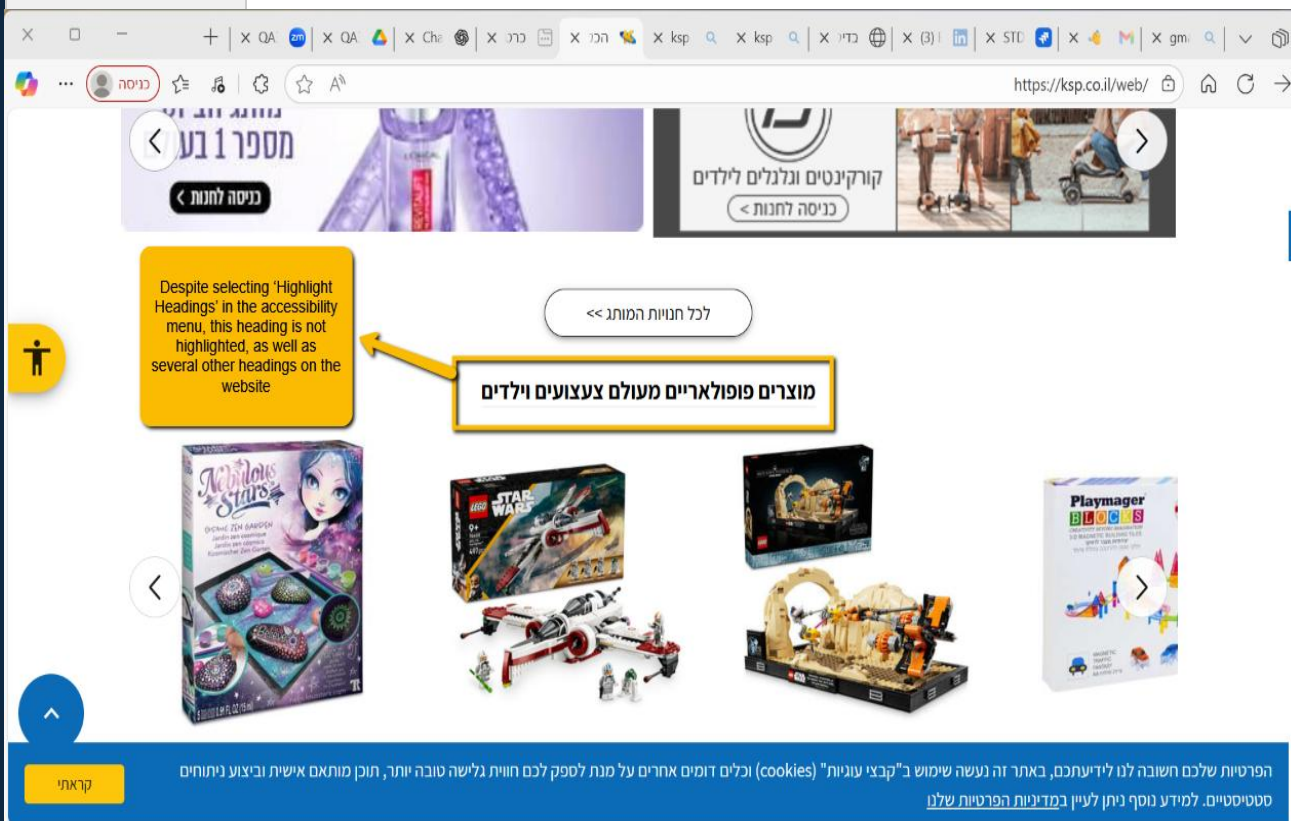

[SPK-6] Highlight Headings’ button in the accessibility menu does not fully highlight headings on KSP website

Created: 01/Sep/25 Updated: 02/Sep/25

Status:	To Do
Project:	STD+STR PROJECT - KSP
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	Medium
Reporter:	Elad zioni	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		

Attachments:

Severity:

Major

Description

Steps to Reproduce:

1. Click on the Accessibility button on the right side of the website, in the top toolbar
2. In the accessibility menu, click on the button under the title: 'Highlight Headings'
3. Observe the headings displayed on the website.

Expected Result:

All the sentences in the website's headings should be highlighted.

Actual Result:

In practice, not all headings on the website are highlighted.

[SPK-7] Clicking on Accessibility while network is disconnected does not display an error message

Created: 01/Sep/25 Updated: 02/Sep/25	
Status:	To Do
Project:	STD+STR PROJECT - KSP
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	Medium
Reporter:	Elad zioni	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		

Attachments:	 Recording #2.mp4
Severity:	Minor

Description

Steps to Reproduce:

1. After entering the KSP website, disconnect your internet connection
2. Click on the Accessibility button in the top toolbar, on the right side
3. Continue clicking on the different buttons in the accessibility menu.

Expected Result:

Receive error – No internet connection

Actual Result:

The actual result is that no message is displayed about the lack of internet connection, and the accessibility menu continues to function as usual.

[SPK-10] System sends SMS to invalid mobile numbers (e.g., 0500000000) despite being non-existent/illogical.

Created: 02/Sep/25 Updated: 02/Sep/25

Status:	To Do
Project:	STD+STR PROJECT - KSP
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	Medium
Reporter:	Elad zioni	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		

Attachments:	 Recording #3.mp4
Severity:	Major

Description

Steps to Reproduce:

1. Click on the "Info & Actions" button on the KSP website
2. Click on "Schedule an Appointment at the Branch"
3. In the mobile number input field, enter an illogical 10-digit number (e.g., 0500000000).
4. Submit the form to request SMS verification / appointment confirmation.
5. Observe the system behavior.

Expected Result:

The system should validate the mobile number and reject illogical or non-existent numbers (e.g., 0500000000), displaying a clear error message.

Actual Result:

The system accepts the number and sends an SMS to an invalid/non-existent mobile number.

[SPK-11] Website does not automatically trim spaces in mobile number input (e.g., 050 123 4567).

Created: 02/Sep/25 Updated: 02/Sep/25

Status:	To Do
Project:	STD+STR PROJECT - KSP
Components:	None
Affects versions:	None

Attachments:

The screenshot shows the KSP website with a modal window open. A yellow callout box points to the text: "Website does not automatically trim spaces in mobile number input (e.g., 050 123 4567)". The modal window has a title "קביעת תור לסניף" and contains a form with a red border. The form has a label "סלפון נייד" and a text input field containing "050 123 45". Below the input field, there is a red error message: "יש להזין מספר טלפון נייד תקין בן 10 ספרות בלבד". The background of the website shows various product categories like "מטבח", "לבוש", "מחשבים", etc.

Severity:	Low
------------------	-----

Description

Steps to Reproduce:

1. Click on the "Info & Actions" button on the KSP website
2. Click on "Schedule an Appointment at the Branch"
3. In the mobile number input field, enter a valid mobile number **with spaces** (e.g., 050 123 4567)
4. Submit the form.
5. Observe the validation result.

Expected Result:

The system should automatically trim spaces and accept the number as a valid 10-digit mobile number.

Actual Result:

The system does not trim spaces and rejects the input, displaying the error "10 digits required".

[SPK-12] [Website fails to auto-correct mobile numbers with hyphens](#)

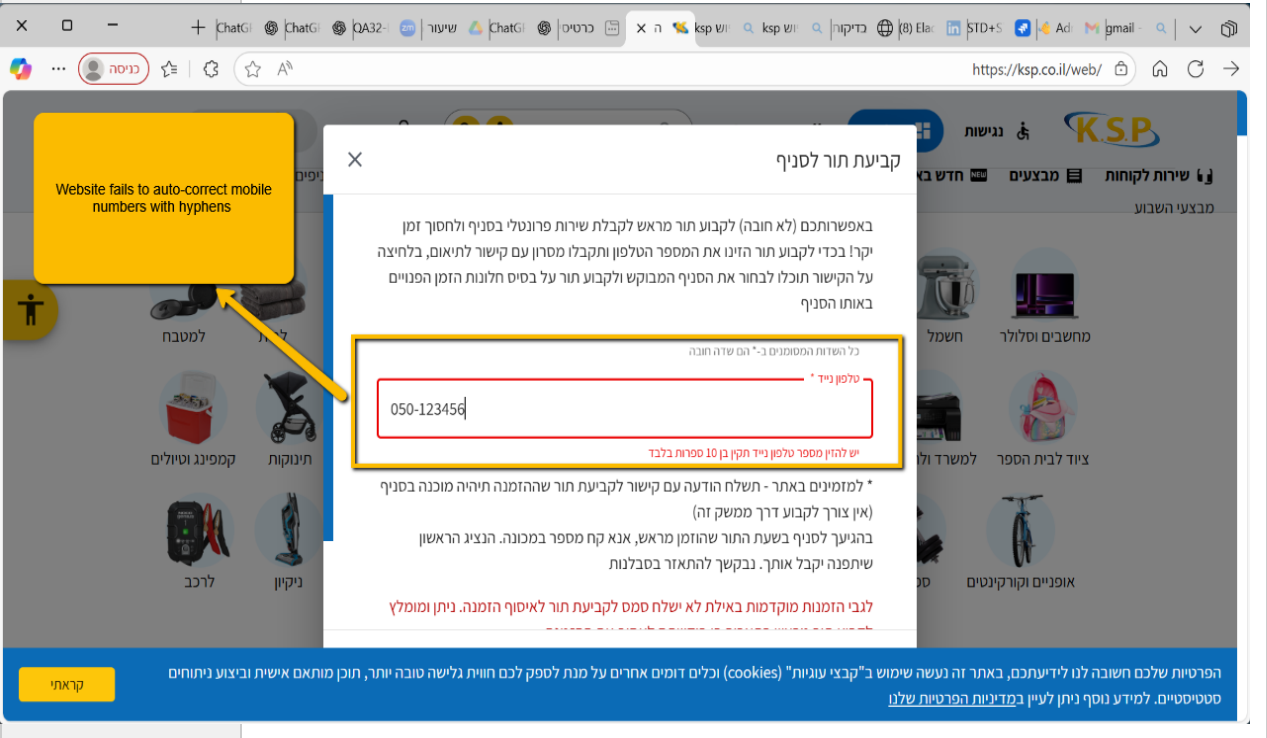

Created:03/Sep/25 Updated: 03/Sep/25

Status:	To Do		
Project:	STD+STR PROJECT - KSP		
Components:	None		
Affects versions:	None		
Fix versions:	None		

Type:	Bug	Priority:	Medium
Reporter:	Elad zioni	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		

Remaining Estimate:	Not Specified
Time Spent:	Not Specified
Original estimate:	Not Specified

Attachments:

Severity:	Low
-----------	-----

Description

Steps to Reproduce:

1. On the KSP website, click on "Info & Actions" in the top toolbar
2. Click on "Schedule an Appointment at the Branch"
3. In the mobile input field, enter the mobile number as an example: 050-1234567
4. Click on "Submit the Form"
5. Observe the validation result

Expected Result:

The website should automatically remove the hyphen and process the mobile number correctly.

Actual Result:

The website does not trim the hyphen and shows an error: "You must enter 10 digits".

[SPK-13] Search with spaces returns unrelated products instead of empty search.

Created: 03/Sep/25 Updated: 03/Sep/25

Status:	To Do
Project:	STD+STR PROJECT - KSP
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	Medium

Original estimate:	Not Specified		

Attachments:

Despite entering an invalid query, the website shows other products in the search results instead of displaying a search error

Severity: **Major**

Description

Steps to Reproduce:

1. Navigate to the product search field in the top toolbar on the KSP website
2. In the product input field, enter a word with a space, for example "מה שבני ד"
3. Click the search button or press Enter.

Expected Result:

The search should behave like an empty search → show a message such as *"Please enter a search term"* or display no results.

Actual Result:

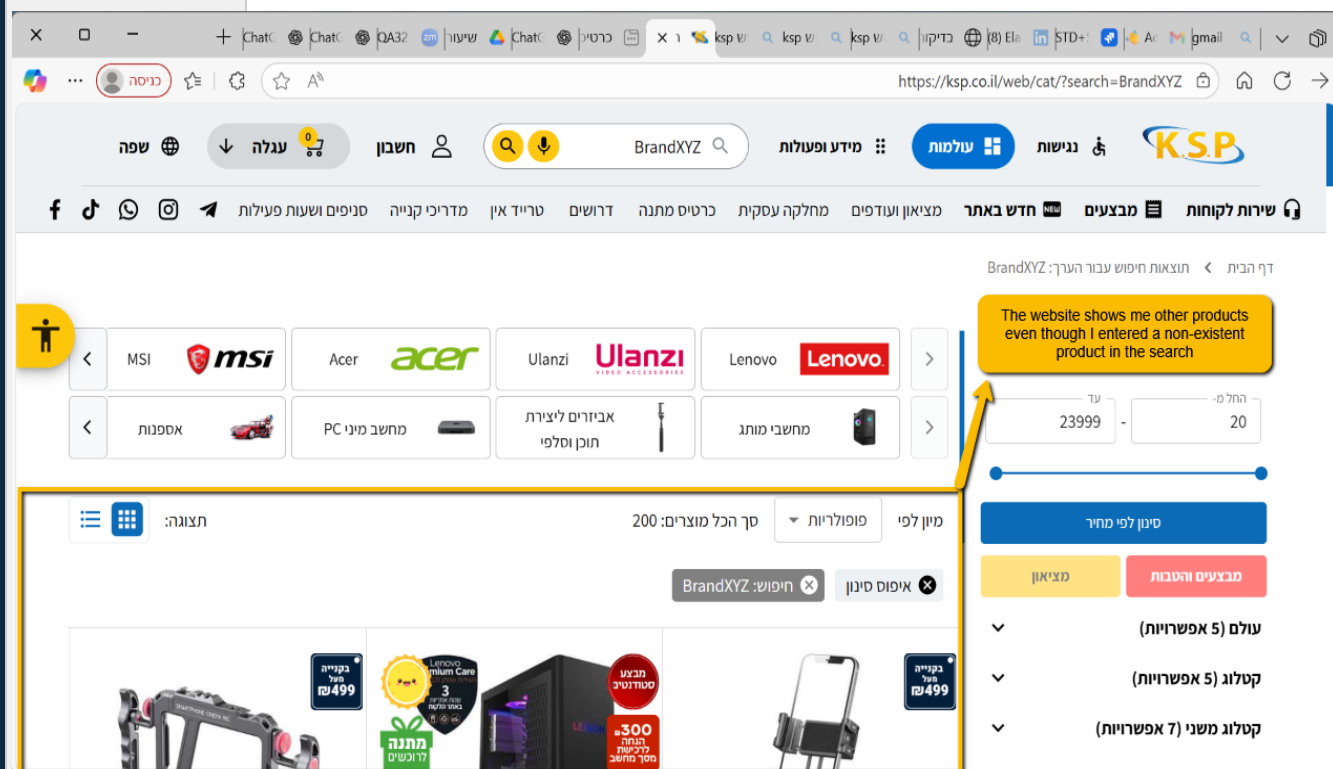

The website displays unrelated products.

[SPK-14] Search for non-existent brand returns incorrect results instead of "No results"

Created: 03/Sep/25 Updated: 03/Sep/25

Status:	To Do		
Project:	STD+STR PROJECT - KSP

The screenshot shows the KSP website's search interface. The search bar contains the text "מחשב - נייד" (Laptop - Mobile). The search results display a grid of products, including bags and laptops. A yellow box highlights the search bar and the results, with an arrow pointing to a text box explaining the issue: "Despite entering an item name with a hyphen, the website still shows other products instead of displaying an error message or ignoring the hyphen".

Severity: **Major**

Description

Steps to Reproduce:

1. Navigate to the product search in the top toolbar on the KSP website
2. Enter a product name with a hyphen in the search, for example "מחשב-נייד"
3. Press Enter or click the "Search" icon
4. Check the search results on the website

Expected Result:

Receive an error message in the search results, or the website should automatically ignore the hyphen in the search term

Actual Result:

The website shows me completely different products from what I searched for.
